Likely to Result in a Murder.

NEWBURGH, March 31 .- The particulars of a probably fatal affray in Mountainville, on the

lewburgh and New York Railroad, on election day, have recently come to light. David Bab-

ock, his sons, George, Samuel, and William, and

James Babcock, their cousin, after voting at the

village, where they drank frequently. William and his son Horace soon left the party and

came to this city. When they returned to

Mountainville at 5 P. M. they unexpectedly met

the old man and the others in the saloon. What followed was related by William Babcock

While Joseph Drexel and his three hired men-Blodgett, Morehouse, and Westen-were eating supper. Victor H. Lovely walked into the dooryard and was seen examining the windows and entrances him his business there. Levely replied that he quit the premises, he replied that he would do as he liked about that. Drexel insisted upon his going at once, and an altereation ensued. Mrs. Drexel, fearing for her husband's safety, requested the hired men to go out and assist Mr. Drexel. They started to comply with her

request, and, as they approached. Lovely drew a revolver and dealt Blodgett a blow on the head, which felled him to the ground senseless. Lovely then deliberately shot Morehouse through the bead, and he fell. Then he turned the weapon on the rest of the party and fired several shots at them, which failed to take effect. The murderer then fled to the mountains near by.

Morehouse is dangerously wounded and will probably die. Should he die, it will add another to the long list of murders in Vermont. Tatro, the murderer of Alice Butler, only a short distance from here, will be hanged in Windsor on Saturday; and murderer Magoon, whose crime was also committed near here, has hardly grown cold in his grave. These, with Groveline and Phair, will make four murderers who have paid the penalty by ignominious death upon the scaffoid in Vermont within a little over a year. And several more are to follow.

Minister Stoughton, who spoke in praise of the Czar at some length. To ansimpromptu sentiment, wishing health and long life to Chief Justice Shea as representing the bar, the Chief Justice responded in a short speech. Gen. It is expected that by July I next the cable system will be in operation on the whole line of the canal, using animal power on the shortest levels and at the locks. The charge for towing will be twenty cents per mile, the same as by animal power, at which price special contracts can be made for the whole season of navigation, thus assuring hostmen a uniform cost of towage.

The speed will be about three miles per hour, until beatmen become accustomed to handling beats at this great increase over the speed by animal power.
